

# **LOCKSMITH REGISTER**

*In a first for Locksmithing in Australia and New Zealand, a definitive list of industry professionals is being compiled.*

## **Why does the Locksmithing Industry need a Register ?**

- *Different legislation across New Zealand, and Australian States and Territories has meant there is no single list of qualified locksmiths*
- *Privacy Acts have prevented even training institutes (TAFE or Competenz) from identifying their apprentices, or those who have completed Trade Certificates, Diplomas or Recognised Prior Learning*
- *Many locksmiths qualified under a "grandfather-clause" which recognised them before more formal qualifications became available or learned on-the-job*
- *Auto locksmiths have been left in 'limbo' and should be recognised*

*Have you completed a Certificate 3 in Locksmithing or are you an Apprentice completing your Qualifications? Have you received Recognition of Prior Learning through TAFE, completed a Trade Competency Test with a Locksmithing Association (MLAA, LGA, ANZLA, NZLA, MLA (UK), ALDO or other Association) or has the craft been handed down from generation to generation?*

*If you consider yourself to be a Locksmith, or you would like some help to gain professional recognition, introduce yourself to the Locksmith Register by completing this form.*

*Please return to: **Locksmith Register PO BOX 33003, Domain LPO, Melbourne, VIC 3004***
