Weekend Overview

We would like to extend a warm welcome to all our current members, trade partners and visiting locksmiths. This year we have again looked back over the previous events, listened to what our members have asked for and have attempted to produce a full new training package to support the current issues in our industry while providing a variation for the members that have continued to regularly attend our event.

We have added to our package this year, due to the many requests, a semi-formal Saturday evening dinner and we would hope that you all take the chance to top off what looks to be a great weekend by attending the MLAA sponsored evening.

As we are aware that product knowledge is an important part of our industry we will again provide an open invitation to all locksmiths to attend the trade exhibit hall.

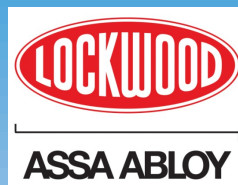

We hope you will take the time to visit all our trade partners booths and make welcome members and non-members alike.

MLAA NZ Committee
